## 1. Introducción

Quisiera comenzar reiterando mi agradecimiento a D. José González Vázquez, que fue durante quince años miembro de la Comisión de Selectividad y que puso en marcha este estudio. Él puso a mi disposición todo el soporte técnico y la ayuda necesaria para poder continuarlo.

Antes de pasar a la presentación de los datos y clasificaciones que se realizan en este documento quisiera hacer algunas apreciaciones sobre su obtención y contenido para evitar una lectura equivocada o la extracción de conclusiones precipitadas que en nada ayudarían a un buen uso del mismo. En primer lugar hay que advertir que lo que aquí se hace es una descripción sencilla de los resultados obtenidos por los diferentes centros que han presentado alumnos/as a la Prueba. En segundo lugar tenemos que resaltar que hemos calculado las medias de las notas obtenidas por el alumnado de cada centro en la Fase de Acceso. Las globales se obtienen haciendo la media de las notas de todos los ejercicios de cada alumno/a, las de los expedientes obtenidos en el centro y de las notas finales. Con estas medias se ordenan los centros de mayor a menor y podremos observar la nota de cada centro respecto a la de los demás.

A pesar de lo limitado de los datos, creemos que son de gran utilidad a la hora de realizar una reflexión aproximada sobre la situación del centro y el trabajo de los diferentes departamentos de cada Instituto y Colegio. Y esto es lo que queremos ofrecer a todos los que lean y observen el documento: una panorámica de los datos obtenidos. Cualquier otra valoración y utilización de estos datos requeriría un estudio más detallado. Aún así, estas páginas pueden ser interesantes para las direcciones de los centros, los diferentes departamentos y la Inspección Educativa, pues con los datos ofrecidos podremos avanzar en el conocimiento de la realidad interna de cada uno, y adoptar las correspondientes medidas de mejora. El análisis de los resultados en las materias de modalidad, que incluyen la misma muestra de alumnado, permitirá a los departamentos una reflexión sobre los problemas particulares en su materia.

Hemos querido también exponer algunos datos generales en función del sexo del alumnado. Finalmente quiero llamar la atención del lector sobre un aspecto muy polémico y del que aquí se esbozan algunos datos. Me refiero a la diferencia entre los resultados de 2º de Bachillerato y los obtenidos en esta prueba. Para ello, hemos considerado una variable que se obtiene restando a la nota de cada alumno/a en los ejercicios de la Prueba, la obtenida en el expediente por ese alumno/a. Hemos calculado la Diferencia Media y hemos ordenado esas diferencias de mayor a menor. Es interesante observar cómo hay centros cuyos resultados concuerdan mientras que hay otros en los que se aprecian grandes discordancias. El análisis de estos resultados debería de conducir a una intervención por parte de la autoridad competente tendente a igualar las condiciones para todo el alumnado. Agradeciendo de antemano vuestro interés, recibid un cordial saludo.

M<sup>a</sup> Jesús Cortizo Suárez

## 5. Diferencias Expedientes-Resultados

Si calculamos la diferencia entre el Expediente (valoración del centro) y los resultados obtenidos en las pruebas (nota media de los ejercicios de la fase de acceso) obtenemos:

Año	2014	2015	2016	2017	2018
<b>Media</b>	<b>1,51</b>	<b>1,40</b>	<b>1,35</b>	<b>1,79</b>	<b>1,71</b>
<b>Desv. Típica</b>	<b>1,15</b>	<b>1,07</b>	<b>1,04</b>	<b>1,13</b>	<b>1,91</b>

Esta media es ligeramente inferior a la del curso pasado, que a su vez ya superaba las anteriores.

En función del sexo del alumnado:

2013		2014	
Hombre	Mujer	Hombre	Mujer
<b>1,40</b>	<b>1,57</b>	<b>1,40</b>	<b>1,59</b>
<b>1,03</b>	<b>1,04</b>	<b>1,18</b>	<b>1,12</b>

2015		2016	
Hombre	Mujer	Hombre	Mujer
<b>1,29</b>	<b>1,49</b>	<b>1,21</b>	<b>1,45</b>
<b>1,07</b>	<b>1,06</b>	<b>1,04</b>	<b>1,03</b>

2017		2018	
Hombre	Mujer	Hombre	Mujer
<b>1,54</b>	<b>1,99</b>	<b>1,52</b>	<b>1,84</b>
<b>1,11</b>	<b>1,10</b>	<b>1,90</b>	<b>1,90</b>

## 6. Notas Finales de Acceso

Lógicamente, la Nota Final es el dato más interesante para el alumnado. En dicha nota influye el Expediente un 60%.

En las páginas siguientes mostraremos los resultados obtenidos por los diferentes Centros, ordenados de mayor a menor Nota Media (tanto en general como en cada materia), estos datos nos permiten observar la posición de cada Centro respecto a los demás. Para cada Centro puede ser interesante ver su posición en el conjunto, analizar los resultados teniendo en cuenta el contexto y la realidad social de cada Centro. Para hacer este análisis es importante observar el número de alumnos/as que presenta cada Centro, lógicamente, cuando este es muy bajo resta valor en el conjunto. Por ello los resultados de los centros que presentan menos de 5 alumnos/as no son significativos.
